

Veracyte Investor Presentation

November 2024

Forward-looking statements and disclaimer

This presentation contains forward-looking statements, including, but not limited to our statements related to our plans, objectives, and expectations (financial and otherwise), including with respect to 2024 financial and operating results; and our intentions with respect to our tests and products, for use in diagnosing and treating diseases, in and outside of the United States. Forward-looking statements can be identified by words such as: “appears,” “anticipate,” “intend,” “plan,” “expect,” “believe,” “should,” “may,” “will,” “enable,” “positioned,” “offers,” “designed” and similar references to future periods. Actual results may differ materially from those projected or suggested in any forward-looking statements. These statements involve risks and uncertainties, which could cause actual results to differ materially from our predictions, and include, but are not limited to: our ability to launch, commercialize and receive reimbursement for our products; our ability to execute on our business strategies relating to the C2i Genomics acquisition, integration of the business and realization of expected benefits and synergies; our ability to demonstrate the validity and utility of our genomic tests and biopharma and other offerings; our ability to continue executing on our business plan; our ability to continue to scale our global operations and enhance our internal control environment; the impact of the war in Ukraine, and other regional conflicts, on European economies and energy supply, as well as our facilities in France; the impact of foreign currency fluctuations, increasing interest rates, inflation, the U.S. election and turmoil in the global banking and finance system; the ongoing conflict in the Middle East and the performance and utility of our tests in the clinical environment. Additional factors that may impact these forward-looking statements can be found under the caption “Risk Factors” in our Annual Report on Form 10-K filed on February 29, 2024, and our Quarterly Report on Form 10-Q filed for the three months ended September 30, 2024, filed on November 7, 2024, as well as in other documents that we may file from time to time with the Securities and Exchange Commission. Copies of these documents, when available, may be found in the Investors section of our website at investor.veracyte.com. These forward-looking statements speak only as of the date hereof and, except as required by law, we specifically disclaim any obligation to update these forward-looking statements or reasons why actual results might differ, whether as a result of new information, future events or otherwise.

Our vision is to
transform cancer
care for patients
all over the world

Positioned to serve the global cancer market

>450K

Patients benefitted by our tests

>35

Countries where our tests are offered

35

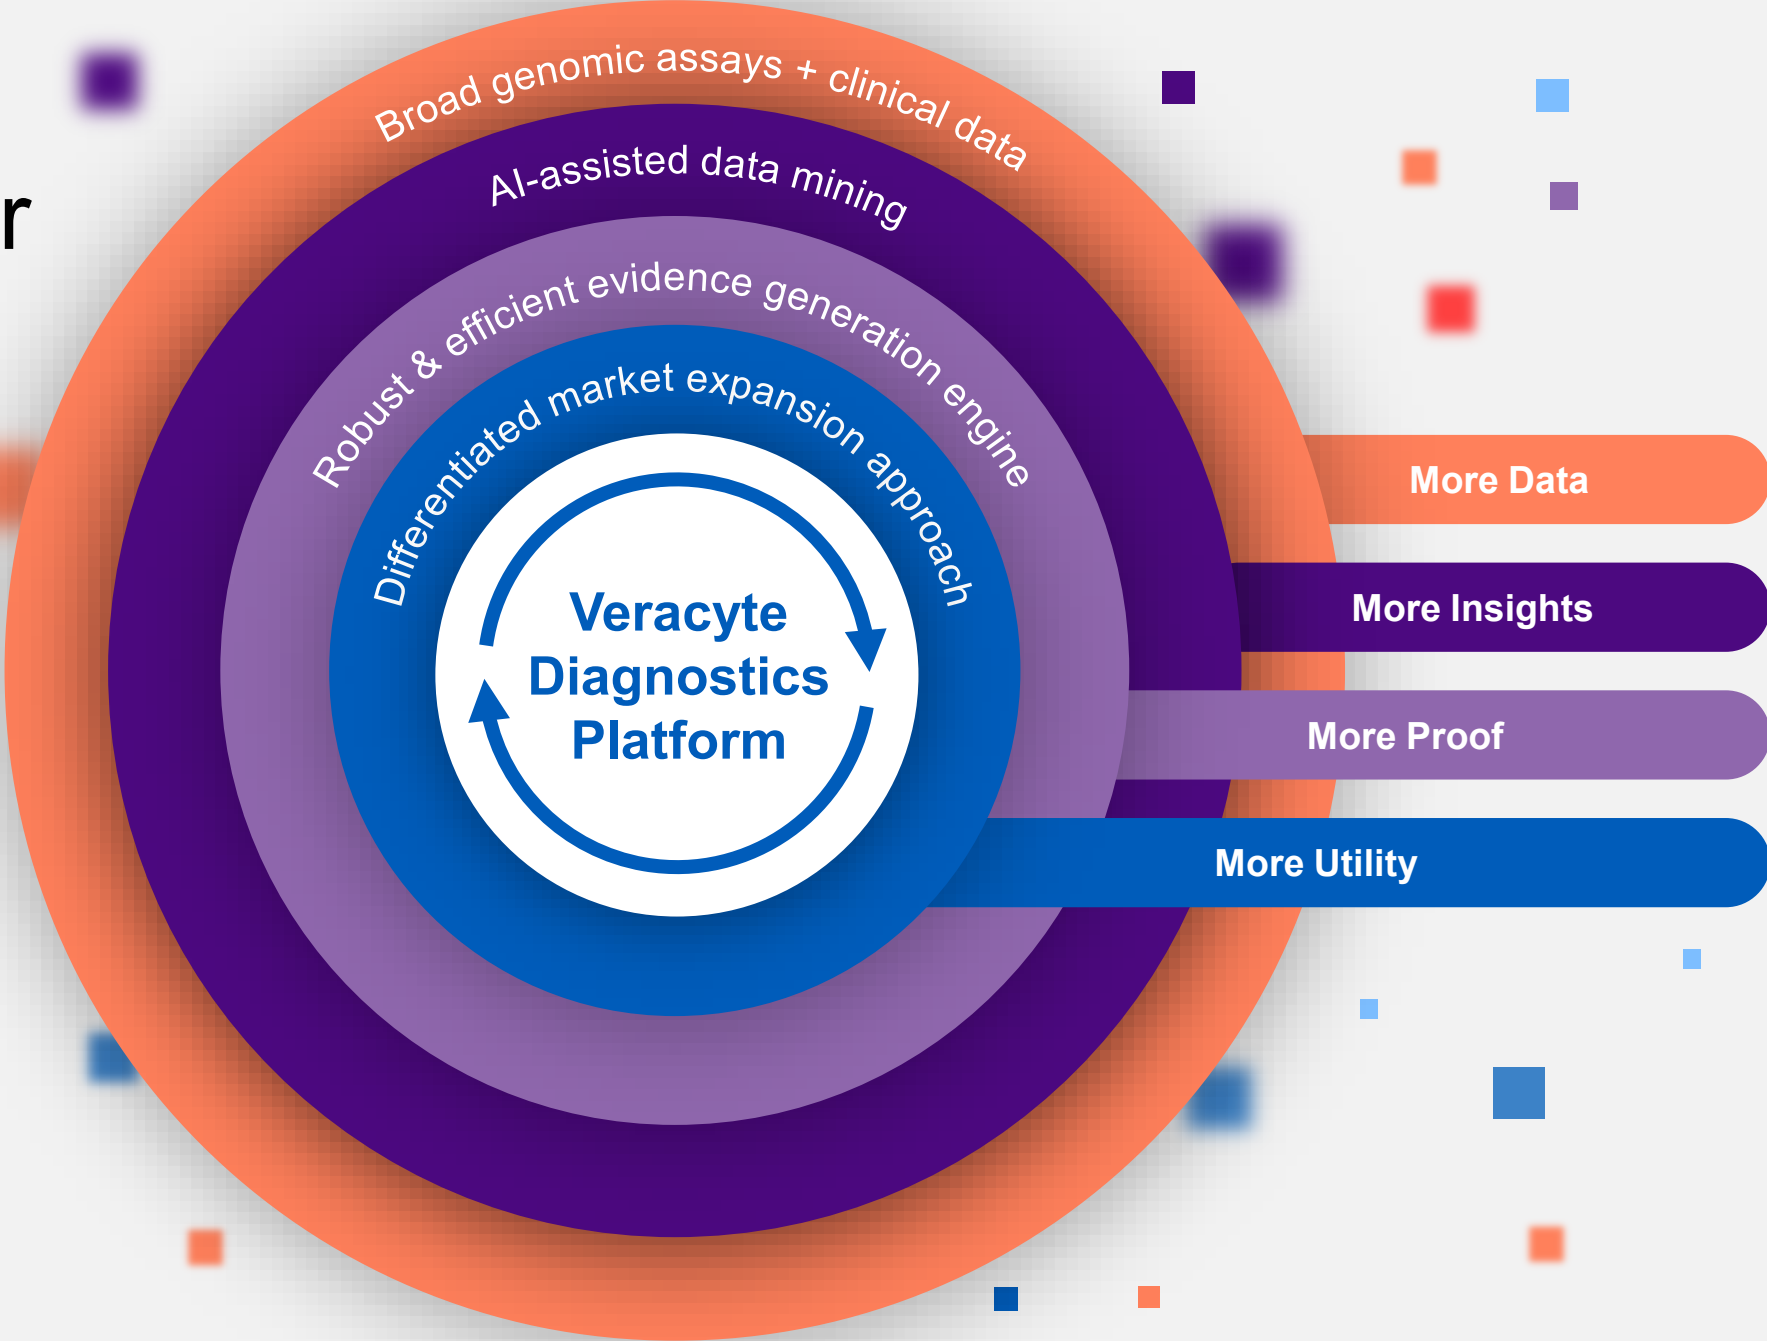

Active clinical trials

>500

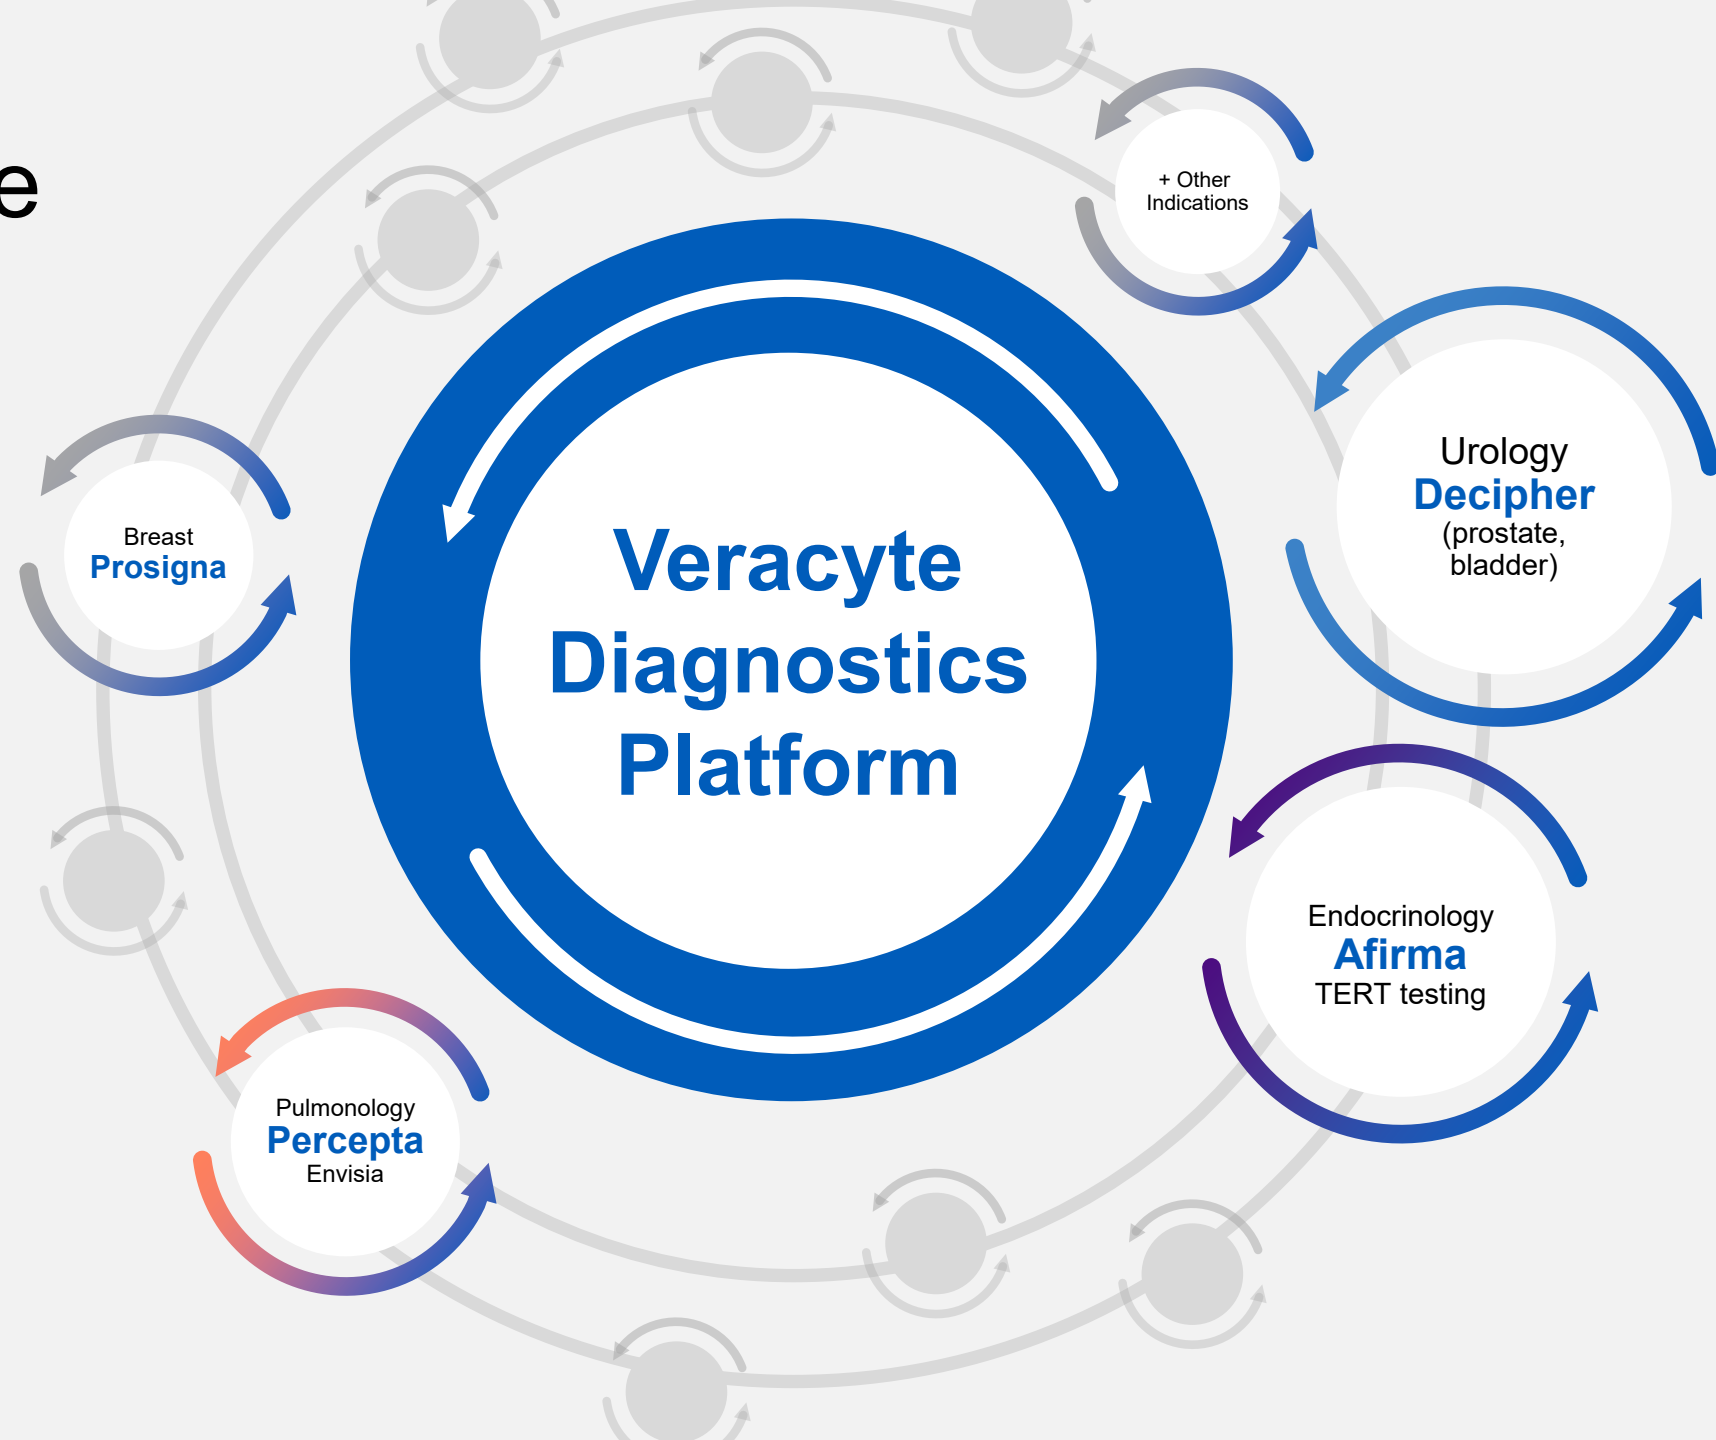

Publications utilizing our tests

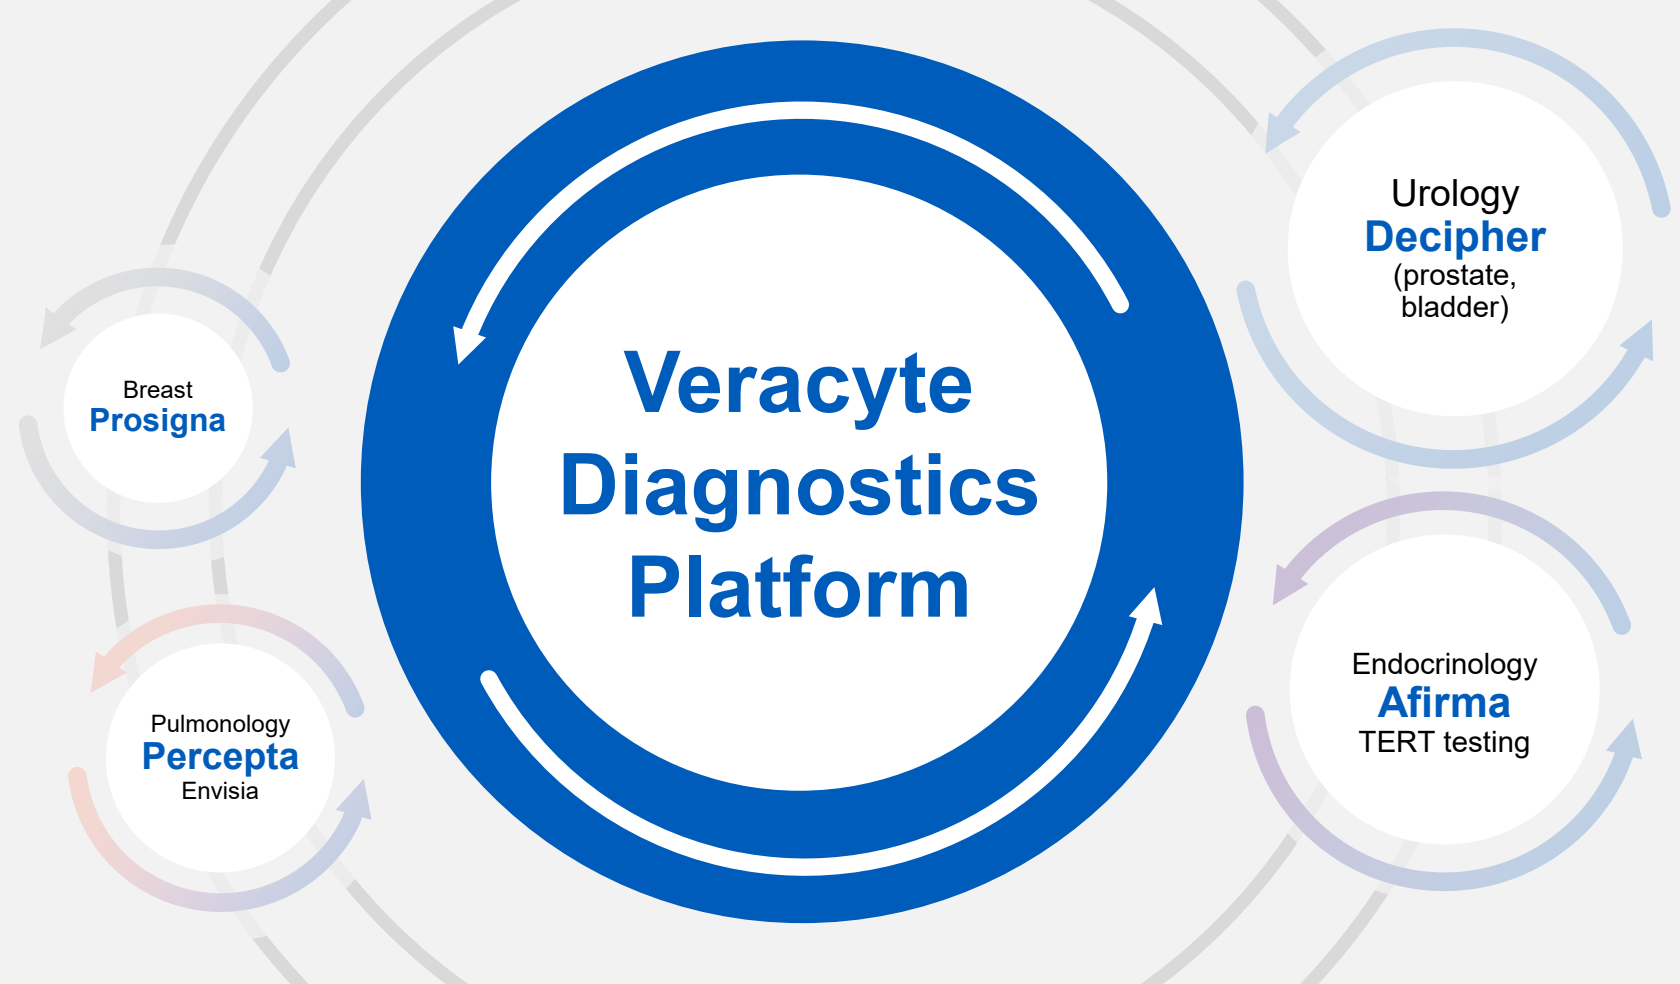

A novel platform for growth

That is extensible
and repeatable

To serve more of the cancer care continuum

The cancer care continuum

- 1 Screening**
(Blood-based MCEd, Nasal Swabs, Imaging, Germline Testing)
- 2 Early Detection and Early-Stage Risk Assessment**
- 3 Diagnosis**
- 4 Prognosis**
- 5 Treatment Selection**
- 6 Treatment Effectiveness**
- 7 Monitoring for Recurrence**

And deliver insights across the patient journey for multiple cancers

PULMONOLOGY

Percepta®

Nasal Swab

Innovative non-invasive test for lung cancer

ENDOCRINOLOGY

Afirma®

Market leader in thyroid cancer diagnostics

UROLOGY

Decipher®

Market leader in prostate cancer prognosis

MULTIPLE CANCERS

Solve new cancer
challenges

Nasal Swab

Afirma®

Market leader in thyroid diagnostics

~275M

Covered lives

>175K

Patients spared an unnecessary surgery

>140

Publications highlighting the clinical validity and utility of Afirma

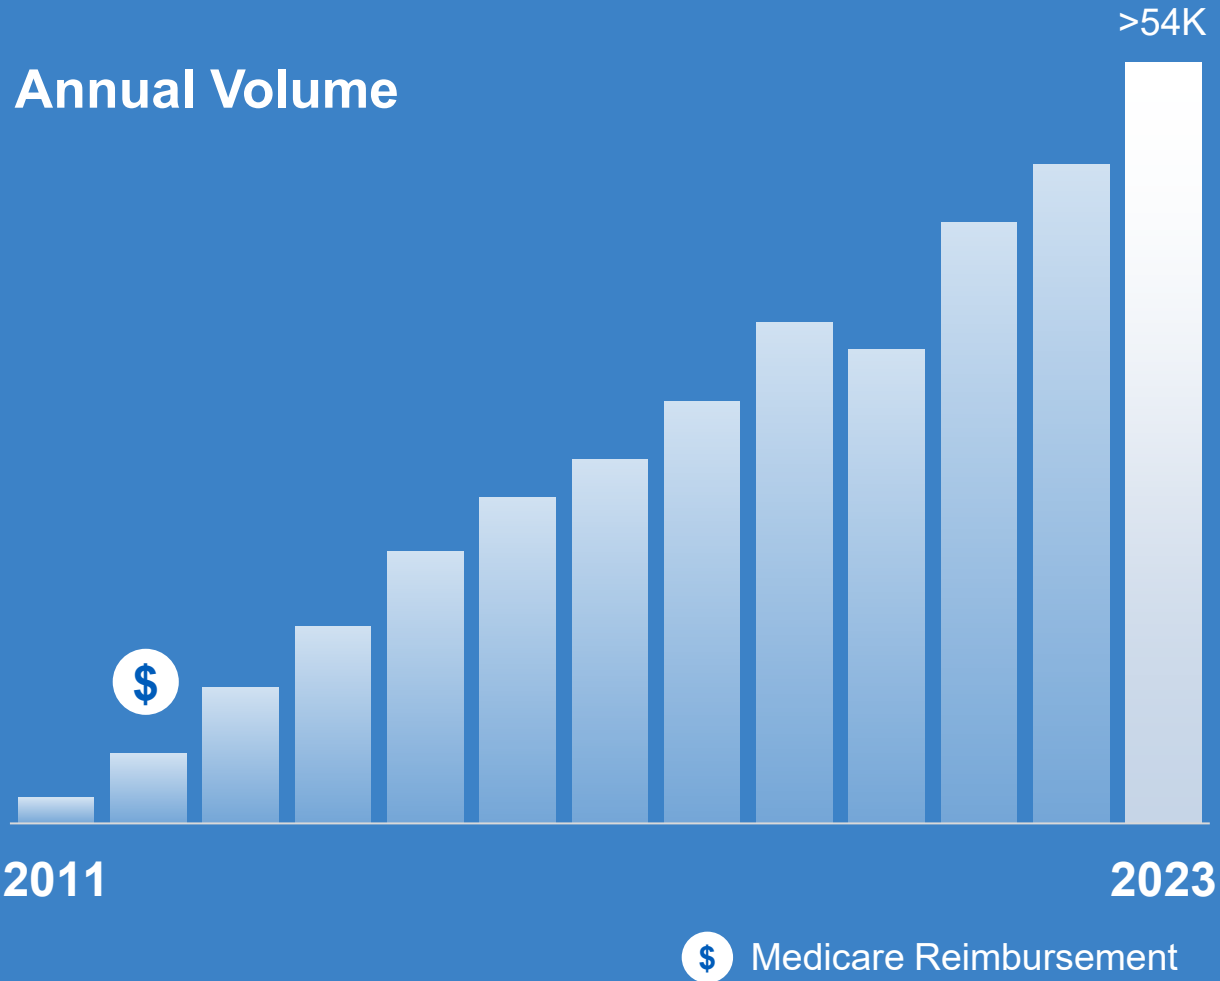

“Physicians want to provide clear answers to their patients, and no one wants to send a patient to surgery who doesn’t need it. Afirma testing gives physicians better information to determine what to do next for patients with thyroid nodules. This may include helping them avoid unnecessary surgery or ensuring more appropriate treatment.”

Joshua P. Klopper, M.D.

Medical Director, Endocrinology, Veracyte

Growing Afirma

Annual Volume

Further penetration and physician conversion

Market expansion including into the Bethesda V population

New test functionality and customer experience improvements

Decipher[®]

Market leader in prostate cancer prognosis & prediction

~200M

Covered lives

Publications

#1

Only gene expression test with Level 1B evidence in NCCN guidelines

“Selecting a prostate cancer management strategy is a nuanced process, balancing the oncologic benefits of treatments with their impacts on quality of life. The Decipher Prostate test helps us as physicians to make sure the right patients are getting the right treatment at the right time.”

Ashley E. Ross, M.D., Ph.D.

Associate Professor of Urology and
Clinical Director for the Polsky Urological Oncology Center
Northwestern Feinberg School of Medicine

Growing Decipher
